COURSE DESCRIPTION:

The Cloud Credential Council (CCC) Big Data Foundation certification is essential for anyone interested in gaining the Big Data knowledge required to create value in real-world applications. This is a fundamental course with practical exercises designed to provide you with hands-on experience in two of the most popular technologies in Big Data processing – Hadoop and MongoDB.

ELIGIBILITY CRITERIA:

BE / B.Tech / BCA / MCA / B.Sc./Msc

Candidates with Mathematics, Statistics background will be given preference.

For meritorious fresher students / Young Professionals (CGPA > 7/10), the work experience will be relaxed on the basis of application.

Basic knowledge of Software development is required

LEARNING OBJECTIVES:

Once you become CCC Big Data Foundation-certified, you will be able to:

Explain Big Data, its origin, and its characteristics

Discuss the tools applicable to Big Data processing

Explain data mining

Discuss the popular Big Data technologies – Hadoop and MongoDB

Discuss the Big Data projects and the main players involved

Identify and obtain relevant datasets when looking at a business problem

Install and manage Big Data processing environments based on Hadoop or MongoDB at a departmental level
