## COURSE DESCRIPTION:

The Cloud Credential Council (CCC) Professional Cloud Administrator certification provides the necessary knowledge and skills to effectively operate as a Cloud administrator. This professional-level course is particularly relevant to professionals with 2-5 years of experience as administrators.

# ELIGIBILITY CRITERIA:

BE / B.Tech / BCA / MCA / B.Sc./Msc

Candidates with Mathematics, Statistics background will be given preference.

For meritorious fresher students / Young Professionals (CGPA > 7/10), the work experience will be relaxed on the basis of application.

Basic knowledge of Software development is required

# LEARNING OBJECTIVES:

Once you become CCC Professional Cloud Administrator-certified, you will be able to demonstrate an understanding of:

Types of Cloud Environments: Cloud environment controls, hosting, ITO Outsourcing, CoLoc, Onshore, offshore versus Cloud

Planning for Cloud capacity: Policy management and third party management

Cloud Administration technology: Virtual networks, storage, and computing, application management in the Cloud

Security administration, compliance, and certification

Cloud Provisioning: Capacity Management, Service Desk Management, Cloud provisioning/ automation management

A vertical image on the left side of the page shows a hand plugging a cable into a server rack. The rack is filled with many other cables, some blue and some white. The background is a light blue gradient.
